

## **ÆSTHETIC SERVICES**

### **Facials / Extractions**

Safe, 30 minute Medical Grade  
Facial / Extractions cleans clogged pores.  
Your skin maybe slightly pink.

### **Back / Chest (Acne) "Facials"**

Safe, effective 30 minute Medical Grade  
Exfoliation / Extractions cleans clogged pores.

### **Microdermabrasion / Hydrafacial**

Used to soften, smooth, and even skin tone by  
exfoliating dead surface (epidermal) skin cells.  
Diamond-tipped wand removes impurities,  
promotes remodeling of collagen and elastin,  
plumps skin, reduces lines and scars,  
and improves overall appearance.

Safe, effective, no downtime or discomfort  
20-30 minute Medical Grade Microdermabrasion  
One or a series of 3 or 6 treatments recommended

### **Dermaplaning**

Used to manually exfoliate superficial dead skin  
while removing facial hair.  
Leaves skin smooth, supple and vibrant.  
Safe and effective, may be done every 3-4 weeks

### **Chemical Peels**

We perform a variety of superficial to  
medium depth peels for the improvement of:  
Acne / rosacea, blotchy pigmentation /  
discolorations, aging / wrinkles, scars.  
We have peels for all skin types, cultures, ages  
and face/body areas.

Chemical peels we may recommend:

**Actinage / B-lifts / Vitalize for acne,**  
**Quelage for rosacea, Pulse Peel for AKs**  
**Melanage for blotchy pigmentation**  
**Micronage, Gloss for photogaging**  
15-20 minutes, none to minimal downtime

## **Our Laser & Light Services:**

The Strimling Institute uses the most advanced  
and sophisticated, multi-platform laser/light  
technology in Las Vegas, the **Sciton Joule**.

Our dual flashlamp Intense Pulsed Light module  
[also known as Broad Band Light (BBL)]  
produces gentle, but intense bursts of light  
to reduce or remove: Acne, brown spots,  
red spots / redness, scars & stretch marks.  
Other uses include Photofacials,  
Permanent hair reduction / removal  
& Skin and soft tissue tightening  
(Usually, 3-5 treatments are required.)

### **PhotoFacial-BBL**

Our dual-flashlamp Broad Band Light  
Utilizes the power of intense pulsed light to remove  
brown spots (hyperpigmentation / melasma),  
redness, veins, and sun damage while tightening skin.  
Improves the appearance of aging skin, enlarged pores.  
Promotes new collagen/elastin and renews skin.  
Excellent for Rosacea!  
15-20 minutes, no downtime, Medical Grade  
One or a series of 3-5 treatments recommended

### **SkinTyte Firming Treatments**

**For Non-Surgical Face / Brow / Neck  
and Body Lifting / Shaping & Cellulite**  
Renews and tightens loose, sagging, and aged skin.  
Utilizes infrared light energy to heat soft tissues,  
stimulating collagen contraction and remodeling.  
Results in a firmer, more youthful skin appearance.  
Great for face/neck, abdomen and thighs  
No downtime, 3-5 treatment series recommended

### **Sciton Erbium MicroLaserPeels**

Precise, adjustable Erbium Laser Resurfacing  
smooths fine lines / wrinkles, reduces brown spots,  
sun damage, scars and other signs of photoaging.  
Promotes collagen remodeling & tightening.  
Offers dramatic long-term results, yet short recovery.  
Safe for all skin types and body areas.  
Great for face, neck, chest and hands.  
(Usually 1-2 areas per treatment session.)  
Expect redness, then peeling for 3-5 days on face.  
And longer on other areas.  
1-4 treatments may be recommended.  
(For pronounced deep wrinkles and acne scars,  
maybe combined with **Profractional Resurfacing**  
for even better results.)

Photofacial-BBL, SkinTyte and MicroLaserPeels  
may safely be combined for synergistic  
and even more dramatic effects.

### **Laser / Light Acne Treatments**

Destroys acne bacteria to reduce current breakouts and  
slows down over-active oil producing sebaceous glands  
to minimize or prevent future breakouts.  
Reduces / Improves appearance of acne and acne scars.  
Generates new collagen, plumping the skin and  
improving imperfections.  
No/minimal downtime. 3-5 treatments recommended.

### **Laser / Light Hair Removal**

Safe, effective, permanent unwanted hair reduction  
of face/lips/chin, neck, underarms, bikini, back, etc.  
Dark, coarse hairs respond best.  
Great for both men and women and most skin types.  
No/minimal downtime. 3-6 treatments recommended.

### **Laser Tattoo Removal**

Safe, effective and precise with minimal discomfort,  
Q-switched laser tattoo removal maximizes clearing  
while minimizing scar risk.  
Requires 3-8 or more treatments
